

1 **In the Specification:**

2 Please amend the second full paragraph on page 5 (lines 18-21) of the
3 specification as follows:

4
5 One of the main attractions to the DirectX architecture is that it is modular
6 and extensible. Unfortunately, these same advantageous attributes may be
7 manipulated for improper use. For instance, a thief may insert a "T" into the filter
8 graph to siphon compressed or uncompressed data to disk.
